The "kubi" – Kufstein Library for Science and Leisure is a public institution created by the FH Kufstein Tirol and the municipality of Kufstein. It was founded through the merger of the university library and the public library in 2018.

The core principles of the „kubi“ are: Provision of literature; the passing of knowledge; supporting students, researchers, and teaching staff; and to advance education and reading as a leisure activity. The library is an organization of the FH Kufstein Tirol, University of Applied Sciences.

The kubi offers students of the FH Kufstein Tirol **further services**, which could help you during your studies.

The kubi has around 15 databases. In the library search engine, most databases are searched when you enter a search term. The exceptions are Austrian Standards, Marketline and Statista.

Further information and database descriptions are available on the [library webpages](#).

## MASTER THESES

### >> Search

In the [Library Search Engine](#), enter a search term and limit the search to „Dissertations“ (German: Hochschulschrift).

In addition, the location must be restricted to „reading room“ (German: Lesesaal) or „magazine“ (German: Magazin).

### >> Location

The recent master theses are arranged according to degree program in the reading room and can only be read on site (signature: "M - \*degree program\*").

The reading room is on the 2<sup>nd</sup> floor of the kubi.

Older master theses are stored separately and must be ordered by e-mail: [bibliothek@fh-kufstein.ac.at](mailto:bibliothek@fh-kufstein.ac.at)  
These master theses can also only be read in the kubi reading room.
